

Africa  
Internet  
Group

**Porto Tech Center** is part of Africa Internet Group and is currently seeking to double its team with the brightest and most ambitious engaging minds.

**Africa Internet Group** is an ongoing success story: being the leading Internet Group in Africa and giving giant steps in Southeast Asia and Eastern Europe. Founded in 2012, it is currently operating in 26 countries and growing.

Since inception, Africa Internet Group created 71 companies in 8 different verticals: online retail, food ordering platform, online marketplace, real estate marketplace, vehicle marketplace, taxi hailing, online travel agency and P2P lending marketplace.

**Porto Tech Center** is powered by four global experts in e-businesses and African markets – AIG, Rocket Internet, MTN and Millicom.

In **PTC** we are building.

**Porto Tech Center** is a development center where top solutions for e-businesses leading companies are created. Founded in 2012 with a small team of 6 brilliant developers, today we are proudly more than 160, growing every day.

At **Porto Tech Center**, we develop and manage all software for our group's businesses and much more. Check out our hot companies: Jumia, Jovago and Kaymu.

**We do e-commerce shops, full logistics, business intelligence and mobile applications involving a wide range of high end technologies** such as php, yii and zend framework and symfony.

We are passionate about what we do, and we have fun while doing it. We are creating a well-balanced team of talented, truly dynamic and highly motivated individuals with a passion for emerging markets and e-businesses. We are currently looking for strongly motivated candidates, who will support AIG Tech Center operations, both in Portugal and internationally.

**Keep in mind, we don't simply work, we are building and connecting continents through e-businesses while we learn and have fun!**

Can you see yourself part of this huge project? Do you have the skills? **We challenge you to come and meet us at Warsaw School of Computer Science on the 22nd of October.**

**Kaymu is the leading online marketplace in Africa** and the go-to site for buyers and sellers to trade online. Kaymu provides a user-friendly platform through which sellers can showcase their products to sell at a fixed price or via an auction to the growing numbers of Africans online.

"Kaymu won the 'Department Store' award of commendation at the Online Retail Awards"

**Jumia is the number one online shopping destination where Africans** can shop the widest selection of electronics, fashion, home appliances, kid's items and have them shipped directly to home or office at convenience. Is an avant-gardist that became a front-runner with robust core values of best-in-class delivery, innovation, and a customer-centric approach at all times.

**Forbes**

"How Jumia is adapting e-retail to Africa"

**Jovago is the leading online hotel booking service** which provides with the best hotel booking experience and with fast, reliable and easy-to-use services. Jovago has the best curated hotels in Africa and around the world. Unlike the traditional way of booking hotels, in which the travel agent chooses for customers, Jovago gives them access to the hotel inventory so they can browse, choose and book their favourite hotels.

"Jovago features around 200,000 hotels globally"
